Site Questionnaire

Who is the target audience?

- The target audience for my website are people who are very interested in tech – wanting to learn more about the latest news surrounding the scene.

How can I tailor the web site to reach that audience?

- By making it look and feel like an actual newspaper, something more familiar to everyday people so they can easily use the website.

What are the goals for the site?

- To provide quick tech news information in multiple types of media assets.

How will I gather the information?

- Through various tech related news sources.

What are my sources for multimedia content?

- Images came from Google News.

- Videos came from YouTube.

- Podcast came from Apple Podcasts RSS Feed.

What is my budget?

- Aside from the time making this, $0.

How long do I have to complete the project?

- Thomas Wallace gave us time to complete the project since coming back from spring break.

- Managed to create the low fidelity bootstrap of the site early on and I was able to figure out I will plan out my site from there. I wanted to not use bootstrap for the final version to challenge myself and to learn more about CSS Grid.

Who is on my project team?

- Me, myself, and I!

How often should the site be updated?

- It should be often updated if a lot of people are using it, but at my current capacity, it will be whenever I can.

Who is responsible for updating the site?

- Me, myself and I again.
